

# denisescottart.com

Nature is the undisputed ruler of creative beauty and I consider it a true privilege to interpret this beauty in my own style.

I enjoy both the complexity of realism and the freedom of intuitively creating works of art in watercolour and acrylics.

Photography is also an obsession and I am currently producing a book of images titled 'Europe and beyond'.

An extension of my artistic creativity is designing and maintaining websites for artists.

My gallery can be viewed at:
