

Stephen Coates

My passion for art started at a very early age inspired by my father who has an amazing talent for art and pottery. My desire to be creative led me into graphic design. I started working for Leo Burnett, Hobart Tasmania in the late 70's. I now work from home in one of the most beautiful locations on earth. From my veranda, I look directly at the majestic Mt Warning, flanked by rainforest, wildlife is

abundant, which has inspired me to design a set of four greeting cards that depicts Mt Warning and some of the bird life which regularly visits our garden.
